To everything there is a season, and a time to every purpose under the heaven.
Eccl. 3:1

"A time to be born and a time to die, a time to love and a time to hate, a time of war and a time of peace, a time to weep and a time to laugh." All that we see and do is measured by time, whether it be a moment, a day, or for a lifetime. And time will go on, but we in C.P.H.S. have shared many wonderful moments together. Classes, study halls, and P.E. are a part of that time, but there was more. Play practice, proms, and contests bring back the most important memories of all----those of people. All the kids, how they looked and acted, the faculty---these are the memories that are held closest and cherished the most. These pages are fragments of that time which has already passed, but all that remains is the memory.

A Time To

Mr. Krapf and Mr. Baudino attended and contributed to our class meetings.

Our Sponsors

At the culmination of our four years in high school, we, the class of 1967, looked back over those years. Two men indeed stood out in our minds. They were Mr. Robert Krapf and Mr. Leo Baudino, our class sponsors.

Mr. Krapf was one of our first teachers in high school. Teaching Biology I and II and coaching the athletic teams, we had all been students of Mr. Krapf at one time or another.

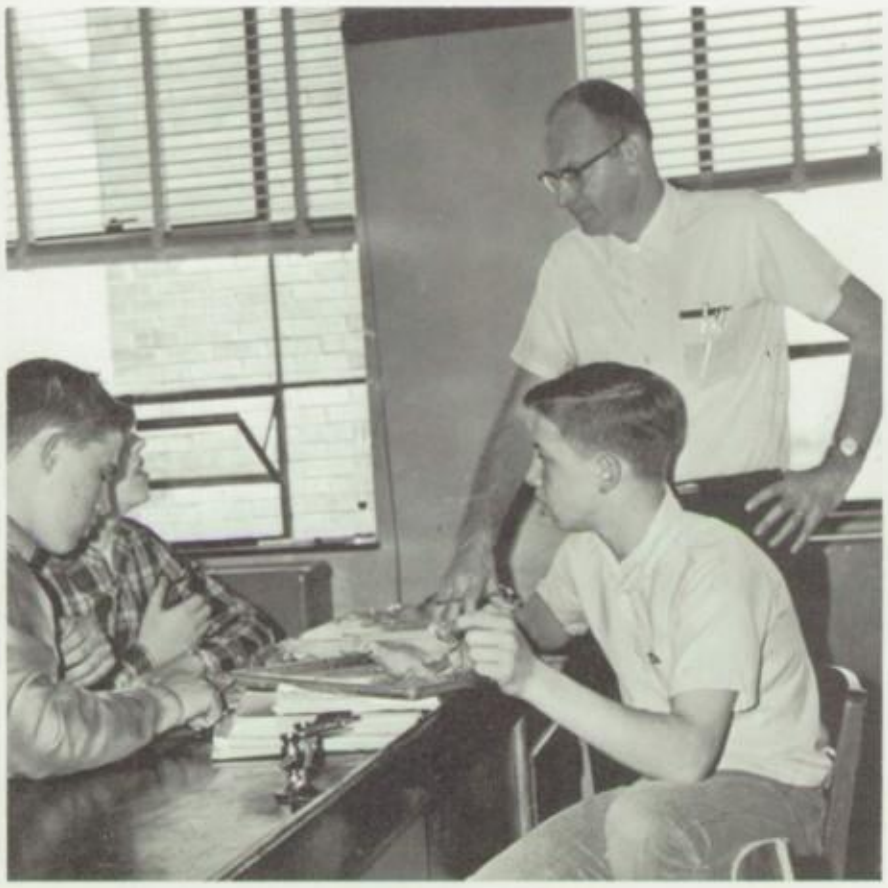
Mr. Baudino came to Cissna at the beginning of our sophomore year, teaching English grammar, composition, and literature.

But these men have been more than teachers. They were friends, advisors, and co-workers on our path of education; they had taken time for us. To them we dedicate the *Cardinal — 1967.*

Mr. Krapf carefully graded those Friday tests and prepared lessons.

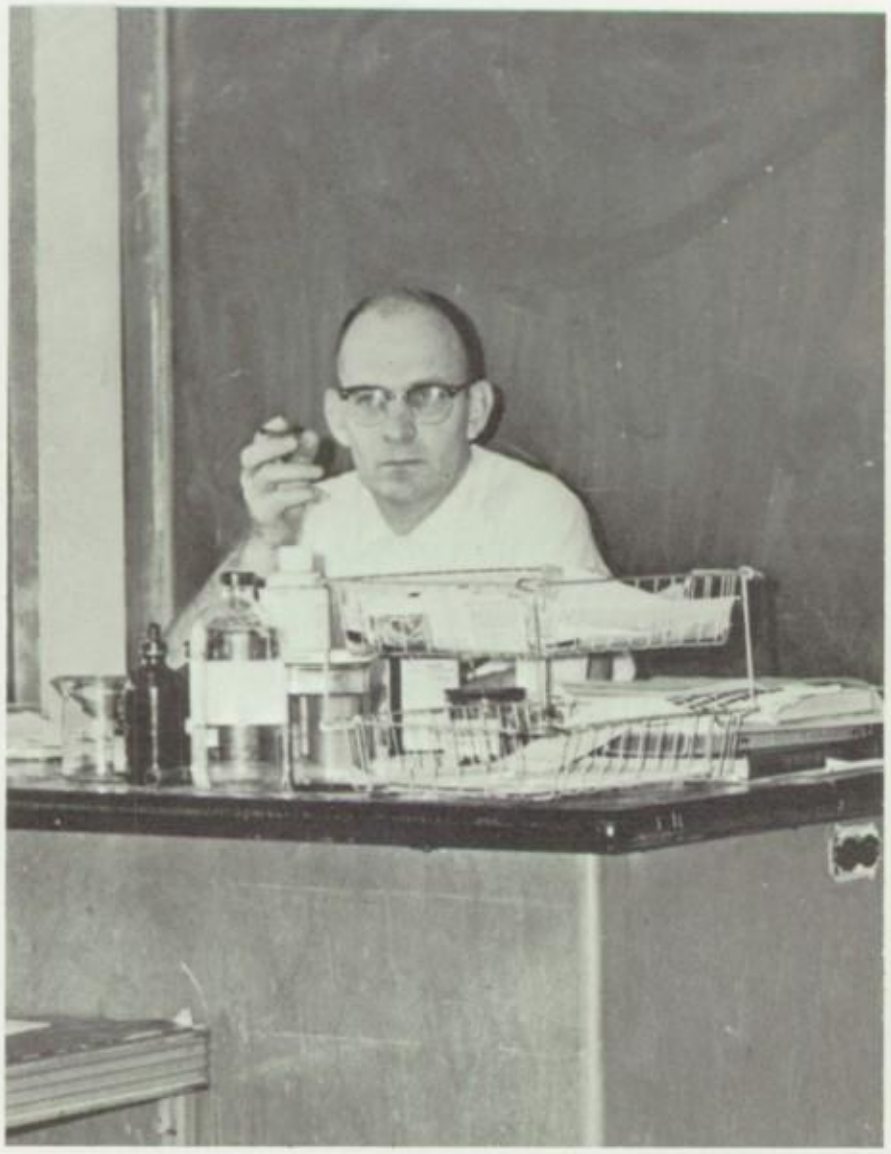
Mr. Baudino seemed to enjoy the company of all the students, even at Halloween.

Appreciate

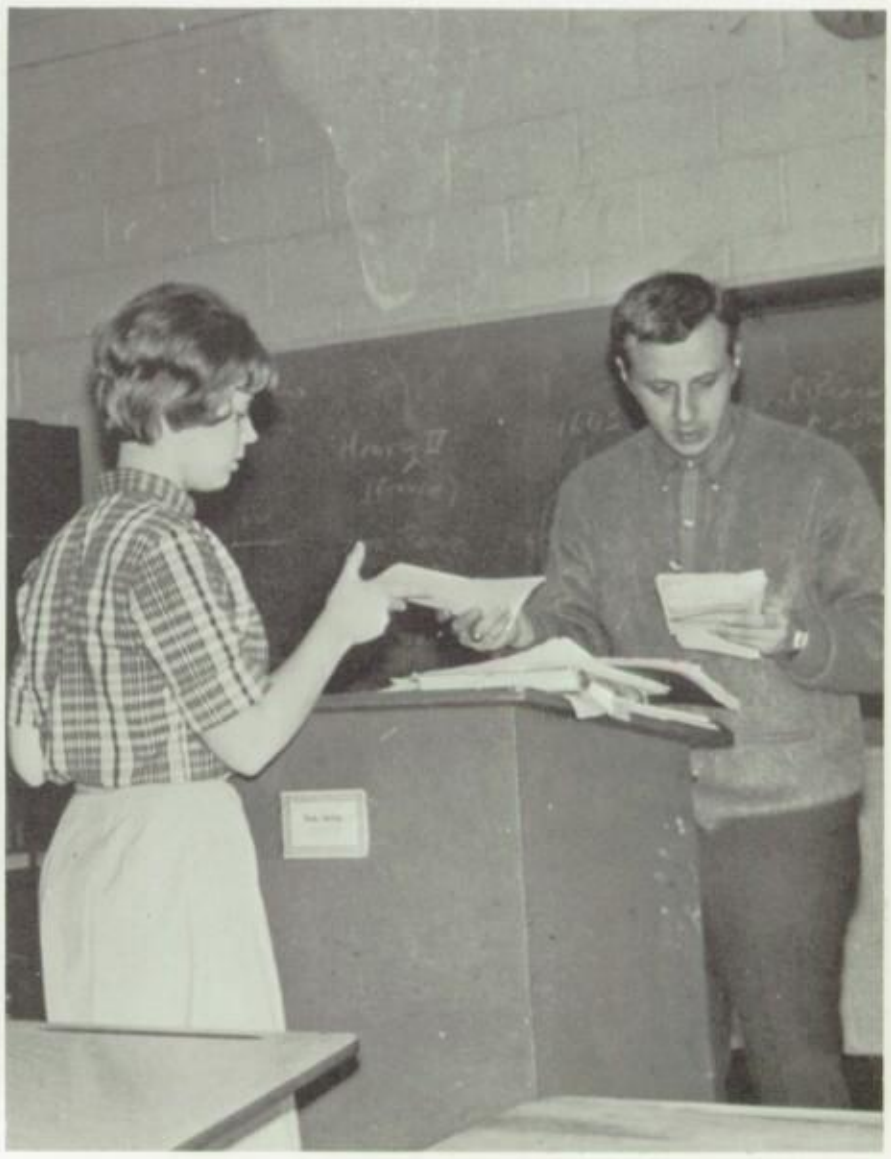


Dissecting was part of the learning experience in Biology.

Individual and group reports gave the students more confidence and poise. This must have been a fascinating one.



Biology lectures, not always on the subject, were delivered with enthusiasm by Mr. Krapf.



Pop quizzes in English IV weren't easy, but we felt ready for college English.

The Junior class officers, Ron Yergler, Pres., Marcia Markwalder, Sec., Pat Schleef, Treas., and Ken Schiewe, V. Pres., seem completely unconcerned about the fact that the prom must be completed in 24 hours.

A
Time For
Learning

English and Latin

Now Hope, you should know by now no talking in class.

What's so interesting?

Diane tells all the latest gossip in her news report.

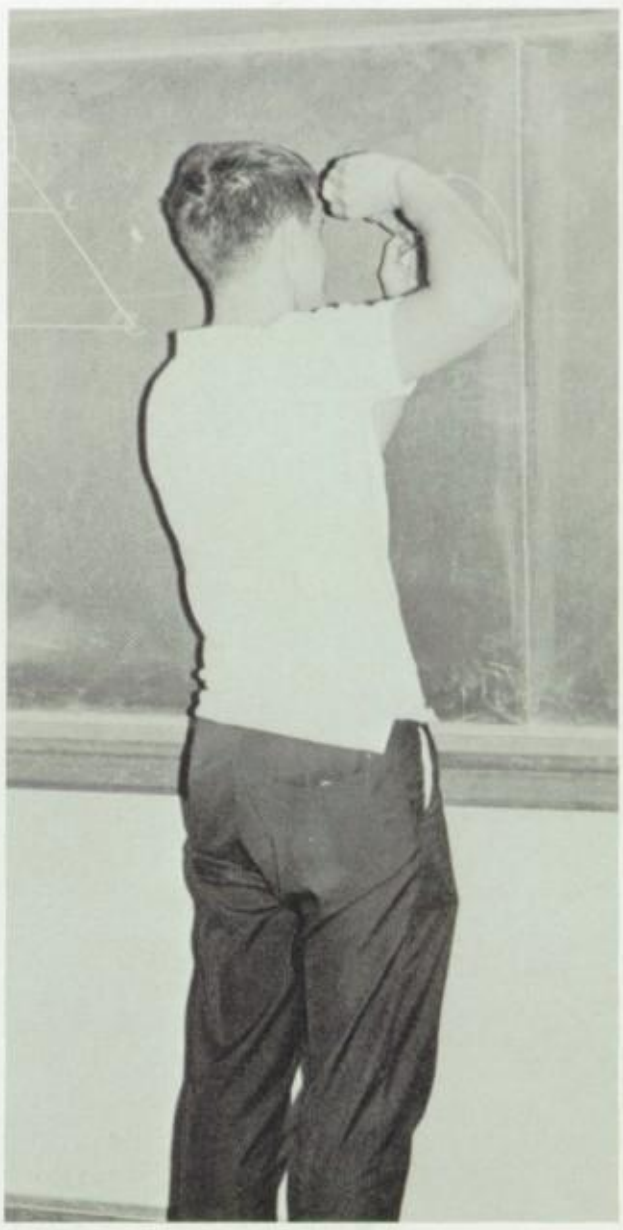
Poor Paul!

"The comma goes here!" "No, no, it's a semi-colon!!" "You're both wrong, it's a period."

Math Courses

Think Mrs. Shepard will come out with the right answer this time?????

Ever wonder why Larry always seems to have the right answers?



Steve is the only one in geometry class who is able to draw square circles. Care to tell the rest of us how?

Are the Freshman really concentrating???

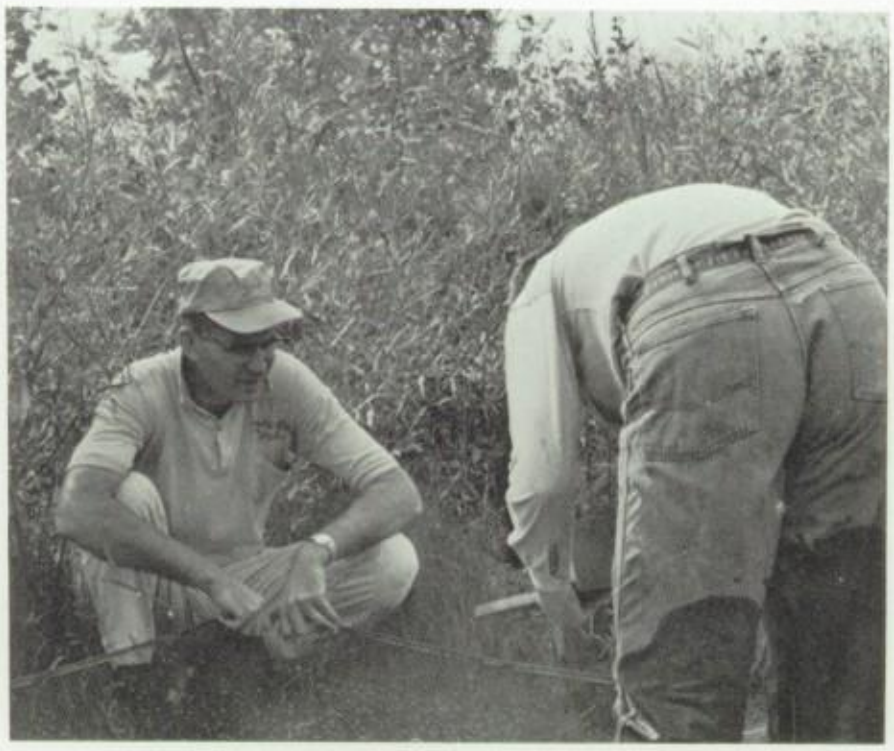
Science Courses

Mrs. Shepard uses her slide rule often to curve pop test grades for the chemistry class.

Dissecting in biology class is even more fun when you get to work with a girl lab partner, isn't it Dennis?

Mr. Krapf lectures on pigs again!

"Frank" flees from fish.



Don't ever tell, but Tim and Mr. Krapf skipped out of school to go fishing several times.

Ever notice how Rick gets his chemistry done? He just lets Nancy do it for him!

Business Courses

Jennifer Beebe's expression typlifies the feelings of many Bookkeeping students as the end of the year rolls around.

Ray Johnson seems to enjoy Business Law more than the average student, but is it Business Law he's learning?

Mr. Cluver often gave informal lectures that caught the complete attention of all the students.

Waiting in line was a usual occurrence in our Bookkeeping classes, if not for an adding machine, we would be waiting to show our outline to Mr. Cluver.

Home Economics

Freshman girls seem to enjoy eating breakfast in the middle of the afternoon.

Sophomores learn through panel discussions.

Miss Stinebring makes out another quiz.

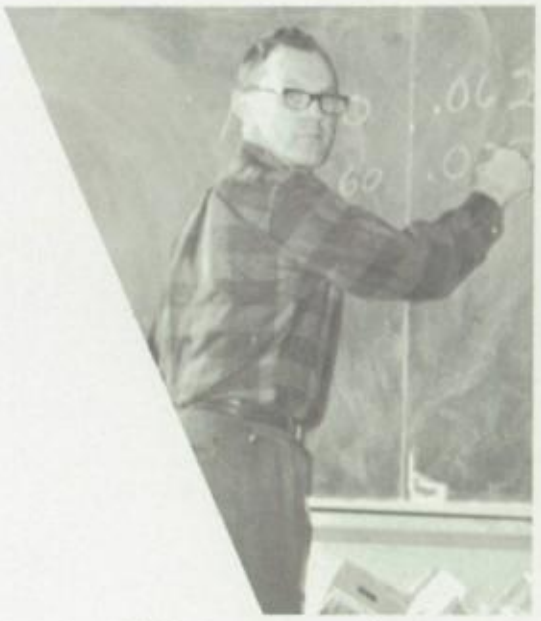
Mrs. Hughes leads discussion as part of her student teaching.

Ronda caught in her tailored coat. After one semester we see you're finally done.

Nancy's little brothers seem to enjoy showing off the cute vests Nancy made them.

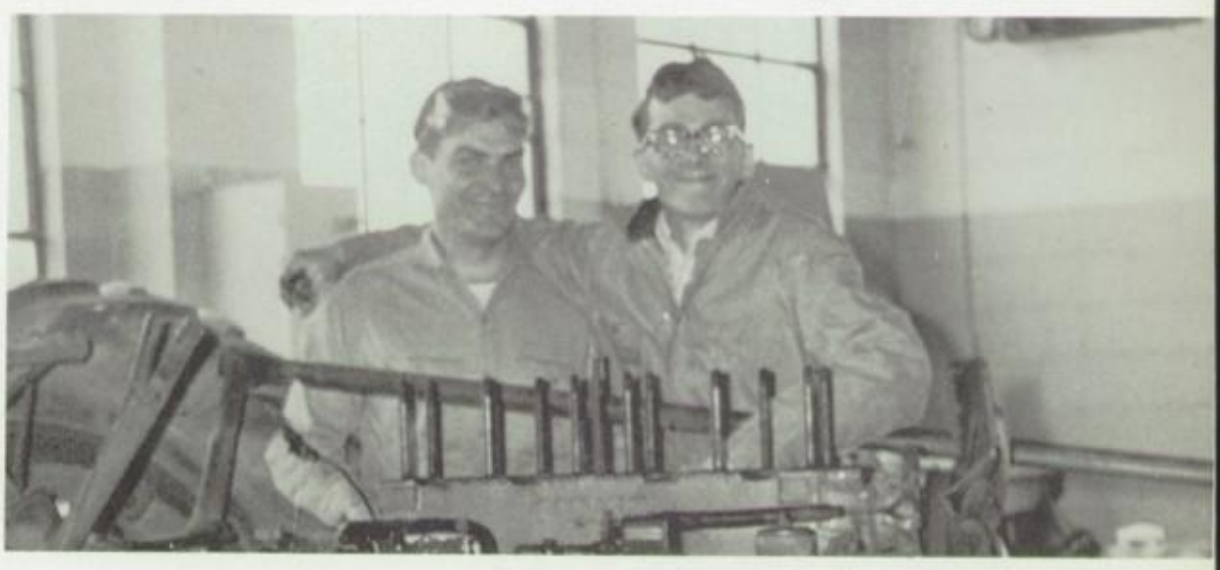
Agriculture Courses

Mr. Ochs supervises his busy students.



"But I was sure that was right!"

Interested ag students gather around Mr. Meyer to hear all he has to say.

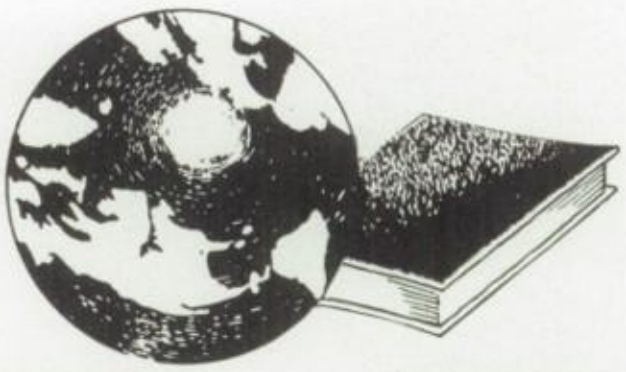


Real Friends -
Ronnie and Mr. Ochs

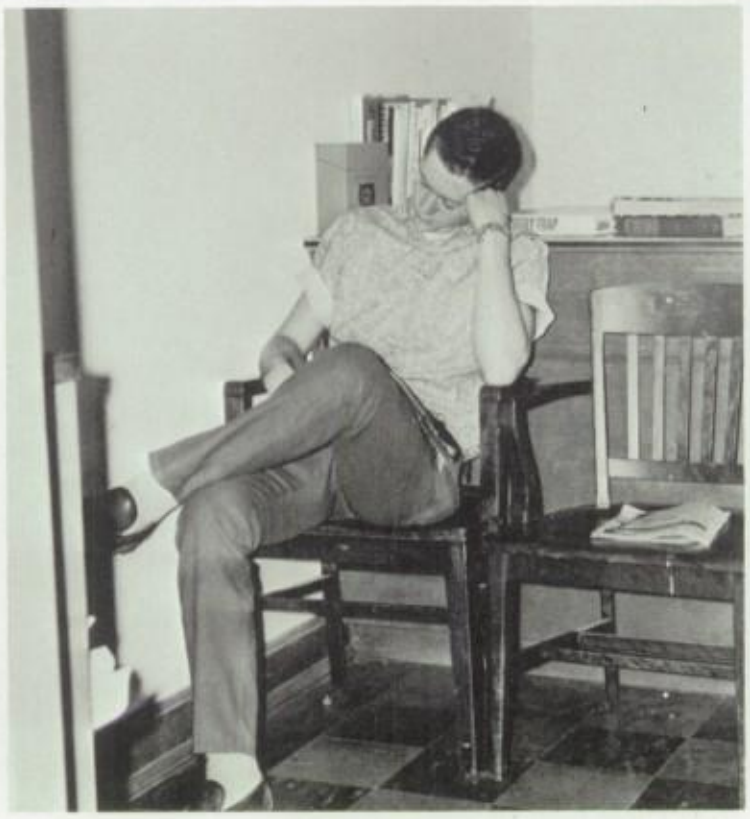
Seniors show their interest in ag by sleeping.

Social Studies

A typical world history class with two students hunting for a country no one knew existed.



Mr. Leden often uses the overhead projector in interesting class lectures.

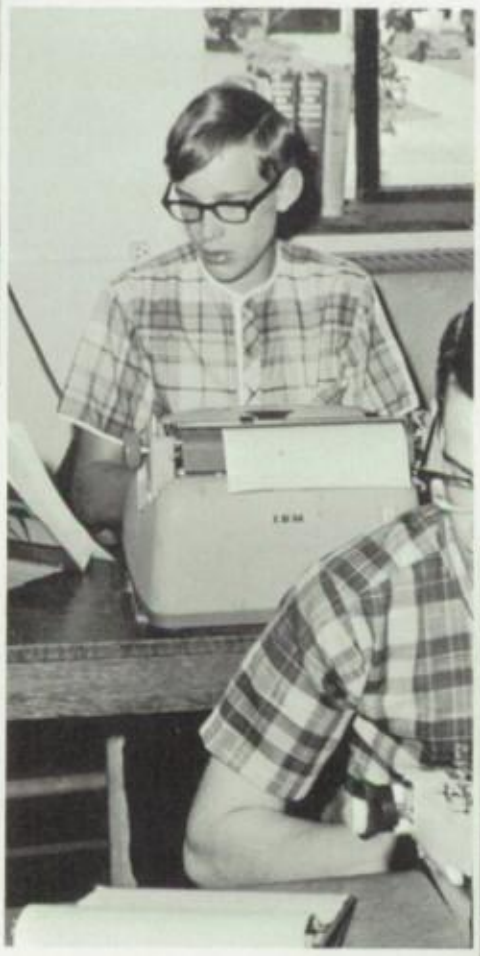


Marc's typical American problems class.

Mr. Nelson supervises interested Juniors in acquiring knowledge on U.S. government.

Dennis, Marlene, Leon, and Lois discuss current world affairs like the moral decay around Cissna Park.

Don't get discouraged you only have four-hundred more problems yet to do.



Jim Bauer demonstrates proper typing techniques for us.

Mrs. Carlson sits at her desk and recites her favorite saying for us, "Don't look at the keyboard!"

Shorthand students work hard to keep up with Mrs. Carlson.

Commercial Subjects

Bookkeeping students have to work hard to do all the practice sets by May 26.

A Time To . . .

The Prom was over, classes ended in one week, and it was time that the Seniors to leave on their annual trip to New York and Washington. The crowd that saw us leave was large and warm, and barely had we started...

. . . when Prom night began to take its toll.

A warm welcome to old CPHS greeted us on our return, and we began to tell old friends of our adventures in the big city.

As our journey came to a fast close starry eyes stared at blurry cards.

The embattled back seat, the dripping hair, and the wet seats gave brief testimony to the ferocity of the battle.

A Time To Return

. . . Travel

Our first stop was Washington, D.C., where we witnessed the changing of the guard at the tomb of the Unknown Soldier.

To the enjoyment of all, Mrs. Watson initiated games and conversation as the trip began to tire all of us.

The wharf at Mount Vernon.

The boat ride to the Statue of Liberty and back was a blast, even though some of our tour group had to leave at 8:00 o'clock A.M.. (or was it that some didn't make it)

Hey, Mr. Baudino, Bob's asleep!

Our cooperative grade school principal, Mr. Harry Starkey, who keeps a can of John Deere green paint in his window in case of emergency.

Mrs. Marilyn Sanders was secretary for the Jr. High. She always has a smile for everyone.

School Employees

Mr. Sanders and Miss Karen Jenkins combined P. E. classes to teach tumbling.

Mrs. Peters, reading specialist, helped many students improve their reading comprehension.

Mrs. Anna May Wilcoxen, speech correctionist, helped the students in word enunciation.

These three women spent many hours preparing the meals for the grade school. From left to right they are Mrs. Judith Frank, Miss Laura Bauer, and Mrs. Till Hari.
